

A Specialist for Process & Environmental Instrumentation and Analytical Systems Integration

Products

- ARJAY: Oil In Water Analyzer
- BLUEPHAGE: Water Testing Kit
- COLIFAST: Online Microbial Analyzer
- FPI: LGA / TDL / Gas Detector
- SYSTEAL: Water Quality Analyzer
- VIAVI: MicroNIR Spectrometer

Services

- System Integration
- Contract Manufacturing
- Assembly & Installation
- Testing & Supporting
- Engineering Design
- Project Management

About

Established in 1998 in Singapore, Asia Technology & Engineering Pte Ltd ("ATE") is now a leading ISO9001 certified specialist company for process & environmental instrumentation and analytical systems integration serving process and environmental industries including oil & gas, petrochemicals & chemicals, pharmaceuticals, power generation, water treatment plants, waste incineration plants, onshore & offshore facilities and etc. Not only a preferred engineering services provider for instrumentation, control and analyzer, ATE also distributes various internationally proven brands of process & environmental instrumentation and analytical instruments measuring gases of CO, CO₂, Cl₂, H₂, H₂O, HCl, HF, H₂S, O₂, NH₃, NO, NO₂, SO₂, CH₄, CH₃OH, VOC and LEL; monitoring ppm oil-in-water and water quality parameters (microbiological contamination, COD, TOC, Ammonia to Zinc); detecting coliphages as indicators in less than 6.5 hours for water quality testing; measuring total suspended solids, turbidity and sludge blanket level; applying MicroNIR spectrometers for portable and online NIR measurements.

ATE is proficient in most of the international technical standards and the best engineering practices in process & environmental industries. Up to date, ATE has completed 6,000+ sets of process analytical systems integration including 1000+ sets of analyzer houses. With more than 25 years of establishment, the customers can rest assured that all products and services will meet and even exceed their expectations. Today ATE is widely recognized as one of the most established leading system integrators for process and environmental analytical systems in Asia.

ASIA TECHNOLOGY & ENGINEERING PTE LTD

Core Business

- Process & Environmental Analytical Instruments & Systems Integration
- Engineering Services for Instrumentation, Control & Analytical Systems
- Sales & Marketing for Analytical, Measuring & Monitoring Instruments

Qualifications

ISO9001: ATE is an ISO9001 certified company. [Certificate at "Downloads"](#).

bizSAFE: ATE is certified by Singapore Workplace Safety & Health Council since 2013. [Certificate at "Downloads"](#)

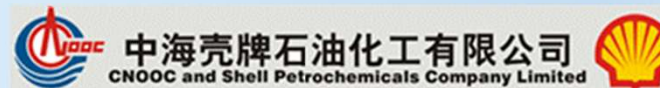

ASPRI: ATE is a member of Singapore Association of Process Industry (ASPRI) since 1998. Visit www.aspri.com.sg for details.

SWA: ATE is a member of Singapore Water Association (SWA) since 2018. Visit www.swa.org.sg for details.

ASIA TECHNOLOGY & ENGINEERING PTE LTD

CLIENTS

ASIA TECHNOLOGY & ENGINEERING PTE LTD

Integration of ASIA™:

Automation Systems of
Instruments & Analyzers

Authorized Distributor:

COLIFAST

ChemScan
An In-Situ Brand

ASIA TECHNOLOGY & ENGINEERING PTE LTD

Deliver Solution of ICE™:

Instrumentation,
Control & Electrical
